

Strategic Developer Report

IONA Technologies / Progress Software

December 12, 2007
San Francisco

Leveraging Eclipse - Products

- Artix Designer
- FUSE Integration Designer
- FUSE ESB
- Sonic Workbench
- Progress Apama
- OpenEdge

Leveraging Eclipse - Projects

- SOA Tools Platform
- Web Tools Platform
- C/C++ Development Tools
- Eclipse Modeling Framework
- Graphical Modeling Framework
- Data Tools Platform

- *transitive dependencies ad nauseam*

Leveraging Eclipse

- STP
- WTP
- CDT
- DTP
- EMF
- GMF
- TMF
- Zest
- MDT
- M2E
- Equinox
- ...
- *transitive dependencies thereof...*

Leadership at Eclipse

- Leading SOA Tools Platform
- Leading WTP JAXWS Incubator
- EclipseCon 2009 Program Committee
- Councils
- Mentoring
 - Spaces/Kepler/BPMN Modeler/Faceted Project Framework

Investment in Eclipse - Committers

- SOA Tools Platform – 3 unique
- WTP JAXWS Incubator – 1 unique
- These numbers are reflected by Dash

Company	Active Committers	Inactive Committers	Total Committers	Percent Active	Commits (2008)	Lines of Code (2008)	Approx. LOC per Commit
IONATechnologies	4 (100%)	1 (100%)	5 (100%)	80%	16,656 (100%)	18,692 (100%)	1
Total	4	1	5		16,656	18,692	

Src Moves 2x

New & Noteworthy

- Acquisition of IONA by Progress
- Progress has
 - ~45 Eclipse Developers
 - A Sincere Commitment to Open Source
 - A Sincere Commitment to Contributing to Communities
- Progress will
 - Continue to support existing project efforts
 - Actively seek for new opportunities within the Eclipse Ecosystem

Comments re Rich's oeuvre

- Training wheels for S.M. +1
- Two Devs to Platform -1
 - One experienced dev to 'common good' +1
 - Derivation of 'common good' is an item for discussion
 - Common good is a directive that has backing, perhaps board imprimatur
