- Sharon Corbett
- Paul Buck
- Wayne Beaton

Minutes

Approval of Minutes and Review of Actions from July 8, 2021

- Approved

Approval of Adoptium Working Group 2021 Budget

- George put forward a motion to approve, Samir seconded. No objections were raised.

Informational: Risks/Expectations for July release

- Tracking TCK status in <https://github.com/adoptium/adoptium/issues/3>

- Aim is to release from EF in July. 40 repositories have been transferred from AdoptOpenJDK as part of this.
- Shelley shared the TCK status table:
<https://github.com/adoptium/adoptium/issues/3#issuecomment-866903922>
- We will prioritise x64 Linux, Windows and macOS for July releases.
- One billing cycle was missed with a provider which resulted in the project temporarily losing access to some machines. This has subsequently been resolved.
 - The LJC will need to submit some small invoices to cover costs from the last month.
- ZenHub board was created to show roadmap/timelines.
- George/Paul suggested a release retrospective where we can provide any TCK feedback/challenges.
 - Shelley says an issue has already been opened (see [adoptium/issue48](#)).

AOB

- Shelley suggested that people assign themselves to marketing tasks because we are running out of time.
- Shelley asked which companies were interested in being listed in the Marketplace.
