## Minutes

### Approval of minutes from December 09, 2021 meeting

- Approved

### Discussion: Marketplace Next Steps

- An API call directly linking to the vendor's binaries would be acceptable.
- API extensions would be required to verify TCK/AQAvit compliance.
  - The Disco API (foojay) already supports this.
- A discussion was held around the self verification process and how a vendor would submit a binary to the marketplace.

- A sample video was shown which demonstrated the proposed user story.
- A discussion was held around which API would be most suitable to host the marketplace
  - PMC to discuss
- ACTION: Shelley to provide an updated video which will be shared with the WG and EMO.
