Minutes:

- We have Quorum on the steering committee
- 3/24 Minutes approved
- Bumper videos are done. They will be shown on cloudclipse youtube page.
- Cloud IDE Days update: working well, need a practice run for the panel.
- Openvsx may need to sync up w/ Sharon.
- Digital Ocean has a 12% discount for hosting FOSS projects. Not interesting. The other options
  - Azure?
  - EF infra
  - Google/A9z?
  - Consider maintenance price
- Community call still needs work add comments here:
  - Clark: more project updates/more time on projects/roadmaps
  - Miro: more time on projects
  - Tim: 'community building' - letting people know what's going on, socialization across projects
  - Tim: roll up of high-level newsletter updates (or encourage teams to talk about these things)
  - Tim: more demos
  - Matthew: call for demo videos from community for timeboxing purposes.
- FDN needs to update and publish events calendar.
- Donate buttons: consistent w/ Eclipse.org, allows tipping
  - Matthew: maybe support is a better term
- Marketing:
  - Many regular blog entries. Good!

- Theia YT channel https://www.youtube.com/channel/UCXu7pV552EkR99mCzjwGvTQ
- We can maybe post blog entries on a mailing list? Maybe a digest to the ML would be good?
