EclipseCon 2023

Still someone missing for the [Developer Funding Showcase] of the Community Day
 -> Jonah volunteered as a backup, tries to find someone who can take this over

Program Plan - 2024

Timeline - November 3rd -> Approved program plan necessary

Sharon kindly asked to make this priority at EclipseCons Steering Meeting

In general, this year, shorter at time in regards to create the budget plan -> November 17th

A copy of the 2023 program plan as basis for 2024 was already created by Sharon

-> Needs to be amended / advised by the steering committee accordingly

Update on IDE WG Development Efforts Initiative

Work is ongoing

Chromium Integration

Martin:

- First draft is done and was already sent via Slack -
<https://eclipseidewg.slack.com/archives/C01V9KCG1M5/p1695990162732129>
- Asking steering committee to review
- Equo will be also at EclipseCon -> Feel free to get in touch with them

Comments:

- Paul:
 - Sounds pretty much the same as the last time, when there were discussions between the Eclipse Foundation and Equo
 - Will it be an on-time cost or on-going charge?

- Martin: Until now this was no topic of the discussions. Assumption would be an on-going charge until the feature will be completely included into Eclipse
- John:
 - What is Equos commitment regarding open-source? What is their incentive?
 - Manuel: What is the alternative to support web based features?
 - Martin: Spoke with Equo about that and he's sharing these thoughts
- Johannes:
 - How many people from Equo are involved?
 - Martin: They mentioned a 'Team', but it's not clear what size this team has

Webinar update

What can we do, after the issues / problems the last time?

- Gerald: No explicit idea, maybe something more 'disconnected' -> Podcast / Video / etc.
- Martin: Join forces with Holger (from 'What's new')?
 - John: Same thoughts, lots of crossover
 - Mark: There is also already a YouTube channel, which might could be used
 - Sharon: Will check further possible steps with marketing team
