Program Plan Updated - Schedule Community Call ● WG update ● Program Plan update ● Follow up from 29th meeting - good news story April 26th. 12:00 UTC - Draft Agenda johannes.matheis@vector.com : I have already created a 0.1 version of the good news story for the community call. I hope you can see the red thread in the presentation. Especially slide 5 is important. I point out up to 12 f developer.. Please discuss whether this is ok or an overcommitment. Any comments are welcome. I will change the slide deck from Vector to Eclipse later on, it was just faster there: https://docs.google.com/presentation/d/1k4SMTpyGEL3AWuuGMpvkIrgJcigMGS3y/edit?usp=share_link&ouid=109029738189107857888&rtpof=true&sd=true	Mark	10

Minutes for April 18th, 2023

Approve Minutes of Apr 4, 2023 Meeting

Motion: Approve Minutes of Apr 4, 2023. Manuel moves and Sebastian seconds. No objection to unanimous approval.

RESOLVED, the Steering Committee unanimously approved the Minutes of Apr 4, 2023 on Apr 18, 2023.

- **Minutes**
  - Sebastian Ratz was confused by his name in the minutes, a different Sebastian was meant
  - Manuel's name was inadvertently used, replaced by Yatta
  - Minutes summarized to avoid ambiguity
  - Move by Manuel Bork and seconded by Sebastian Ratz
- **Community call**
  - Calendar entry was made
  - Sharon will start the marketing machine
    - Will be posted on LinkedIn/Twitter
    - Sharon will update on Slack
  - Johannes made an initial slide deck for the strategic update to present at the call
    - Approved by Mark
    - Already improved slightly by Manuel
    - No objections to the message we're putting out
- **Intensify strategic work**
  - SAP would prefer to have the hackathon at the start of july instead of june for their internal calendar and to give Johannes the chance to attend
    - Yannic will update Sharon on timing, location, amount of available seats … such that she can start the marketing
    - The foundation will be busy in June as there's an all hands week starting the 19th followed by many holidays.
- **Community Management Subcommittee**
  - Johannes is in talks with Sharon to get this started
  - Steering committee unanimously approves the creation of the Community Management subcommittee. Sharon noted that the charter has to be updated to reflect this change.
  - Possible mailing list needs to be open, need to make sure we have vendor neutrality, share minutes …
- **Update on blog post for the community call**

- ○ Manoj is finishing the post tonight and will raise the issue with the foundation to get it published
- **Eclipse Java IDE twitter account**
  - ○ The foundation now has ownership of the account
  - ○ Reach out to Jonah if you want to help monitor/tweet/retweet …
  - ○ The committee wonders whether a more generic twitter handle would be useful. This one is Java specific, even has Java in the handle
- **Sponsorship initiative**
  - ○ Narrowed down the issues and they are being worked on
- **WG Development Efforts Initiative**
  - ○ Subcommittee meets next week
  - ○ A generous sponsorship was received recently
- **Webinars**
  - ○ Will likely ask for volunteers via email today
  - ○ Need to make sure that the already agreed topics are still available and relevant
  - ○ We want to keep May 3rd even though that's in the vicinity of the community call to make sure we do not accidentally jeopardize the june webinar
- **New membership opportunities**
  - ○ Many of the existing companies we are trying to reach out to were compiled at the start of the WG in a manual effort. Mostly companies based on CDT.
  - ○ Mark will talk to Paul to compile the companies that contribute to eclipse projects as they are prime potential members
  - ○ Some companies do not see the value of being a WG member. Hopefully a bigger impact from the WG dev effort inclines them to consider
  - ○ We should work on an elevator pitch e.g. benefits of being a WG member in 3 sentences especially compared to contributing to projects directly
    - ■ Prioritize your efforts
    - ■ Influence into decision process without having to offer concrete resources
    - ■ Cross project view/discussion of Eclipse
    - ■ Collaboration of like minded companies
  - ○ We will include our elevator pitch in the community call as a starting point
  - ○ Mark wants to cut out some time at another time to discuss what new membership opportunities we can give or whether we can have different types of contribution to be a WG member
  - ○ Mark will create a document where members can contribute what their current benefits are and/or add a testimonial
  - ○ Sharon will clean up the steering-committee email members
- **JDT(/LSP) plans**

- ○ No update
- **AOB**
  - ○ The steering committee should meet at EclipseCon 2023
    - ■ Tuesday morning
    - ■ We also want to organize a hackathon
    - ■ Sharon is working on having the foundation sponsor the meet & greet and have some WG banners present
    - ■ Mark will contact An to talk about the community day, committee meeting, and hackaton
