<ul style="list-style-type: none"> ● EclipseCon 2023 ● Community Day ● Community Day Welcome and WG banners ● Steering committee meeting ● Hackathon <p>5. Similar to last year we would like to have a community day session shared with the Eclipse Platform project on Monday. This joint session will need a slightly bigger room than last year. ~40 people maybe.</p> <ol style="list-style-type: none"> 1. Just FYI members of the Eclipse IDE WG plan to be available and attend the Welcome session in the evening for WG promotion. <p>6. We would also like to arrange a room for an Eclipse IDE Steering Committee Meeting for Tuesday morning if that is possible. 2 hours should be sufficient for around 15 people.</p> <p>7. We are also considering a Hackathon. Are these events being planned this year for Thursday?</p> <ol style="list-style-type: none"> 1. Alternatively we could do a BOF for the EclipseIDE. 2. We anticipate around 10-15 developers might be present from steering group companies that might want to do the Hackathon event. So a small BOF might work if Hackathons are not happening. 3. A general Hackathon if they are being held would probably attract a few more than that maybe! (fingers crossed) <p>8. Swag? Something for the WG to give away. Connect Eclipse to the IDE. Needs to be planned asap.</p> <p>Sessions for Eclipse IDE?</p> <p>No Hackathon's are planned at the moment but that might change.</p>

Something we want to discuss? Some in the community are unhappy with the result of the discussion about moving the project websites to a new domain (Moving Project websites from www.eclipse.org/shortname to eclipseprojects.io (#732) · Issues · Eclipse Foundation / Help Desk · GitLab) and the decision which was now announced on the committer mailing list to move all project websites from eclipse.org to eclipse.dev It feels like the feedback by the community is ignored.
