Minutes

Minutes for April 4th, 2023

Approve Minutes of Mar 21, 2023 Meeting

Motion: Approve Minutes of Mar 21, 2023. Jonah moves and Manuel seconds. No objection to unanimous approval.

RESOLVED, the Steering Committee unanimously approved the Minutes of Mar 21, 2023 on Apr 4, 2023.

New date for Community call

Sharon for agenda, timeline 1 hour, Start time request: 12 UTC April 26

Mark will cover the Working Group Update and the Program Update.

Johannes to cover the follow-up from the Working Group meeting March 29 with a short summary, reuse of material from the meeting, the public announcement parts on funding and personnel activity on the projects.

Jonah is to provide technical content, and Paul Buck will provide business slides.

Plan to promote the Community call

Blog post: Sharon is discussing LinkedIn Post to get something out, and then reshare. This can also synergize with the community call. Starting with a small LinkedIn post, reshape just that we had a face-to-face, then recycle the presentation into a blog post. Manoj volunteered to do the blog post, suggestion to use a draft in google Docs, and everyone can crowdsource, Manuel to have their doc team to help. Need to make sure to get on Planet Eclipse.

Sharon Corbett to Everyone (Apr 4, 2023, 08:53) Draft LinkedIn post - https://docs.google.com/document/d/1144L4QgrRYJVny_Z3kjwVkrwQy2Rs6YABFyQMjHBwaY/edit?usp=sharing

manojpalat to Everyone (Apr 4, 2023, 08:54) Thanks Sharon - I will use this to see my blog.

Eclipse Java IDE Twitter Account

Jonah brought up, Mark covering: Jonah has the password.

Eclipse Foundation ownership of the physical ownership, and then share the password back with our team through the process.

Jonah will coordinate with Miakel Istra and the webmaster.

Where the YouTube videos are…

The twitter accounts: replying to people as a pseudo support channel.

Some people have abandoned twitter, some teams and people are still using Twitter.

Newsletter

June members newsletter to provide some updates (April/May/June) from marketing - Sharon

Projects missing from SimRel

Eclipse Jetty and Eclipse Collections exist in SimRel instead of contributing so they need to be voted in.

Eclipse Collections are contributing, there was an error in the original. We want the correct number. Eclipse Collections is missing, but should be in – Jonah; Eclipse Collections no objections. A bug, no approvals needed.

Titouan and Jonah: Is someone else contributing? A bunch of others, Ed: indirect contributions

The official list of contributing in active way: *Jonah Graham to Everyone (Apr 4, 2023, 09:04*) https://projects.eclipse.org/releases/2023-03 is the official list

Update sites that are contributed, compute that from there (Ed)

Jetty was listed as there. P2 -> would Jetty would react negatively?

Nebula and Eclipse (E)FX - rely on shipping, dependencies

Distinguish between active wanting community providing and requirement for 66 vs 82 for the list.

Note that Eclipse Accessibility Tools framework got removed as it only provided the Windows version, but also didn't resolve.

Need to compile the list from Ed vs Jonah.

Wayne handled it in the past; we should create a Gitlab issue: need to use the issue that reconciles and add that into the chat. Ed Merks to Everyone (Apr 4, 2023, 09:12) https://gitlab.eclipse.org/eclipsefdn/it/websites/projects.eclipse.org/-/issues/139

There is a database that tracks this stuff.

Sponsorship initiative update

Nothing updated for today(Sharon)

Developer efforts

Dark Mode in Set, chipping away going and dragging right, won't be extending, the money will be drawn and closed out.

M2E improvement: pull requests and showing visibility improved in what was done.

For the Tyco, Paul and Ed marks coordinating just getting started. IBM assigned engineers to get, coordinate and optimize the talent in the area.

For the 6 p2 security findings Ed has taken on, a functional prototype exists but delayed by M1 freeze week. There is 1 controversial fix that will cause talk.

Eclipse Foundation will cover the expense for the security items, like the audit.

Q, re: dark mode closing off, did we get everything we wanted done, done. What happens next? From the Planning Council current priorities, this doesn't make top of the list, based on importance.

Planning council is meeting Wed to highlight new priorities. It would be good to get the new priority list in a subsequent call.

Titan: Planning Council has a backlog, where is the list? Working documents to create the initial list google sheets of the brainstorming list. Not really a backlog, it is the stuff not prioritized. More work that isn't in the board.

Jonah Graham to Everyone (Apr 4, 2023, 09:19)

https://wiki.eclipse.org/Planning_Council/2021-09-06#Review_Simrel_issues_list_to_see_what_would_be_the_top_3_issues_and_the_actions_that_should_be_done is the spreadsheet - I'll also send to mailing list.

For browser: Sub-committee wants to review the formal proposal by Equo and will decide the next steps later following an investigation.

Webinar

Schedule Webinar resolved to be May 3rd.

Gerald to post out a request for speakers. Gerald will send out messages to get speakers now that there is a date.
