

MÜLLER-BBM
VibroAkustik Systeme

SIEMENS
Ingenuity for life

Müller-BBM VAS & Siemens openMDM[®] Strategy

openMDM[®] Annual Meeting, 3 Jul 2019

Observations Current Status

MÜLLER-BBM
VibroAkustik Systeme

SIEMENS
Ingenuity for life

1. Activities

- MBBM and Siemens are actively supporting further developments
 - Node Provider
 - ERF support extension for API
- SC Meeting/Call frequency has decreased

2. Financial Model

- No fundamental changes were made to the financing model
- So, the conclusion of last year remains valid:
 - this is not sufficient for further completion and (growing) maintenance
- Losing a driver member has a serious negative impact on this already negative balance
