SCALAMODULES

Creation Review
<DATE>

QUICK FACTS

- Proposal: www.eclipse.org/proposals/scalamodules

- Communications: www.eclipse.org/forums/eclipse.scalamodules

- Mentors: Chris Aniszczyk and Wayne Beaton

- Project Lead: Heiko Seeberger (WeigleWilczek)

PROPOSAL SUMMARY

- The ScalaModules project is a proposed open source project under the **Equinox Project**

- This project will create a **Scala DSL for OSGi**

- It will build on the **existing codebase** (1.x release) and enhance it further

- Graduation is planned with the **2.0 release** aligned with the **Helios release plan**

MOVING TO ECLIPSE

- ScalaModules is an existing project

  - Released in version 1.0 in March 2009, under active development towards version 2.0

  - Apache License, Version 2.0

  - Hosted at GitHub: github.com/weiglewilczek/scalamodules

  - Domain: www.scalamodules.org

- ScalaModules will be moved to Eclipse completely

PRESENT & INITIAL COMMITTERS

- Heiko Seeberger - Managing Director, WeigleWilczek

  - OSGi and Scala expert, Equinox Aspects committer, lead developer of ScalaModules so far

- Roman Roelofsen - Lead Architect Enterprise, ProSyst

  - OSGi and Scala expert, BindForge committer, creator of the initial concepts of ScalaModules

- Kjetil Valstadsve - Senior Architect, Open AdExchange

  - OSGi and Scala expert, contributed the filter DSL as well as lots of small improvements and documentation

COMMUNITY FEEDBACK

- Two additional interested parties:

  - Kevin Wright (Vyre Ltd.)

  - Miles Sabin (Chuusai Ltd.)

TENTATIVE PLAN

- 2010-02-01 or ASAP: Start moving to Eclipse

- 2010-03-19: Milestone 1

- 2010-05-07: Milestone 2

- 2010-05-28: Release Candidate 1

- 2010-06-11: Release Candidate 2

- 2010-06-23: ScalaModules 2.0 Release && Graduation
