

Jean-Marie LAPEYRE

Chief Technology and Innovation Officer
Global Automotive Industry

Capgemini

Jean-Marie has 25 years of experience in IT and Engineering as Chief Architect, CISO, or CTO.

Before joining Capgemini and for nearly 15 years, Jean-Marie held a variety of global executive positions with mainstream vehicle manufacturers, driving technology strategy, leading cyber security transformation and operations, or delivering large scale international enterprise programs.

Now at Capgemini, Jean-Marie drives the technology and innovation agenda for the Automotive Industry, leveraging talents and expertise in Engineering, IT Services, and Consulting, in particular as applied to the Software-Driven Transformation.

Jean-Marie holds Masters' degrees in Pure and Applied Mathematics and Computer Science from the École Normale Supérieure, and post-graduate engineering degrees in Information Technology from the École Nationale Supérieure des Télécommunications.

Since his university years, he has been a constant advocate for the adoption of Free and Open-Source solutions in the industry.
