BPMN Modeler 1.1
Mini-Deck

June 29, 2009

■ The BPMN modeler is:

■ a graphical editor

■ to model Business Process Modeling Notation (BPMN) diagrams

■ compatible with the BPMN 1.0 and BPMN 1.1 specifications proposed by the Object Management Group.

- Work on the model to avoid invalid relations
  - Update to take advantage of EMF speed improvements
- Compatibility with GMF and GEF changes
- Diagram related fixes
- Better drag and drop
