

# OPEES Update

Ralph Müller  
Update: June 8, 2011

# The OPEES Mission

- Ensure long-term availability of critical / embedded systems engineering technologies
- Secure industry competitiveness and development
- Towards a federation of Industrial Users and Service Providers
- Build a sustainable ecosystem around OPEES technologies
- Avoid the creation of one ecosystem per end user

# The OPEES Eco System

# The OPEES Challenge

- Create organization that provides
  - continuous development
  - continuous maintenance
  - very long term support
  - appropriate services

to the OPEES eco system

# The OPEES Challenge

## **Alternative 1**

- Independent Entity
- Cost Estimate: >> Euro 700'000

## **Alternative 2**

- OPEES as Eclipse IWG
- Cost Estimate: >> Euro 250'000

# OPEES Status

- Evaluation of both scenarios is underway
- Decision expected in week of June 13, 2011
