

Eclipse Add-in Provider Requirements
Sept. 2005
(Rank Order)

Item	Description	SUM
RCP4	More complete branding control, completely remove 'Eclipse' name from files / directories, etc.	\$24.00
M5	Catalog of Add-in providers	\$23.00
E4	OS awareness	\$20.00
M1	Business Solutions Message	\$20.00
M10	Market research	\$20.00
P3	Reduce footprint size (memory)	\$20.00
RCP1	Core framework installer for RCP and install metadata store (like JRE or .NET framework)	\$19.00
RCP6	RAD tooling for RCP	\$18.50
E6	Download and debug remote targets using JTAG, etc.	\$15.00
WTP5	Enable RCP - Webapp interoperability	\$15.00
WTP3	API to support wizard extensions	\$14.00
PR6	Add-in providers identity	\$13.00
P1	Normalized SCM Menu/Interface	\$13.00
TP2	Support for end-user systems (code coverage, integrated testing tools, reporting mechanism)	\$12.00
M15	Opt-in newsletter	\$11.00
E10	Automate tasks via scripts (scripting of the IDE)	\$10.00
PR1	Segment out add-in providers by specialty	\$10.00
M16	Plug-in Marketplace (EPIC)	\$10.00
TP1	Repository for tests	\$10.00
TP4	Unified compliance test suite	\$10.00
P6	Better doc for API migration	\$10.00
DTP4	Support for additional data types (LDAP, XML,EJB)	\$9.00
M13	Fact Sheet (numbers)	\$9.00
WTP4	Ability to generate WS client into other than just webapps	\$7.50
PR2	Technical article pipeline	\$7.00
WTP1	Project-specific server runtime settings (policy settings, JVM params, etc.)	\$7.00
PR5	Eclipse business models	\$6.00
M11	Analyst relations (Gartner, IDC, ZapThink, Burton, Esther Dyson, etc...)	\$6.00
E5	Better support for multiple people collaborating on the same project	\$5.00
E9	Support for simulators and emulators	\$5.00
WTP2	JSR 168 portlet support	\$5.00
WTP7	Priority input - Support WSDL 2.0 before J2EE 1.5	\$5.00
DTP5	Pull data together from many sources	\$5.00
M2	Marketing to decision makers (SMB to Fortune 1000)	\$5.00
RCP2	Improved configurability of update site for enterprise update management	\$5.00
P5	MS Vista support	\$5.00

M6	Seminars	\$4.00
WTP6	Pluggable WS codegen model	\$3.00
DTP1	Encourage general project integration and interop where possible (across all projects)	\$3.00
PR4	Ongoing column in top books	\$2.00
M7	Global Outreach	\$2.00
E7	Shared configurations	\$1.00
E12	Better ClearCase support	\$1.00
E1	Support for large projects (> 250K LOC)	\$0.00
E2	Closer alignment between CDT and DSDP	\$0.00
E3	Multi-core debug	\$0.00
E8	Support non-traditional keyboards / displays	\$0.00
E11	Solaris performance	\$0.00
PR3	Eclipse wiki for pitch ideas	\$0.00
DTP2	Registry / communication of cross-cutting concerns across all of Eclipse	\$0.00
DTP3	Database schema manipulation	\$0.00
M3	One page brief (business level)	\$0.00
M4	Press (business level)	\$0.00
M8	User groups	\$0.00
M9	Large systems integrators	\$0.00
M12	Consistent message	\$0.00
M14	Lead generation	\$0.00
RCP3	Automated build and release engineering scripts	\$0.00
RCP5	Feature sandboxing	\$0.00
TP3	Mechanism for collaboration and communication between modules	\$0.00
TP5	Hooks for tools like Jprobe	\$0.00
P2	More concurrent translation	\$0.00
P4	Eclipse installer (simplified and full directory image)	\$0.00
